

HOME WEATHERIZATION

This program helps customers save energy, as well as keep their homes warmer in winter and cooler in summer.

WHAT IS IT?

Our program makes homes safer and more comfortable. Weatherization improvements also make buildings more energy efficient, lowering energy bills in the long run.

HOW DOES IT HELP? YOU MAY RECEIVE

ENHANCED indoor air quality and ventilation

REPAIRED OR REPLACED heating systems

SEALED drafty areas

INSULATED attics, walls, basements, and crawl spaces
